# Agenda

**Universal Benefits**

**Subjective & Situational Benefits**

**Features**

# Universal Benefits

---

# Universal Benefits

**Reduction of Cost**

**Standards Compliance**

- ES6+
- Modules
- Internationalization & Accessibility

**Performance**

**Open Source**

**Popularity**

**Documentation**

# Subjective & Situational Benefits

## Framework

- Router, http, forms, rxjs, etc.
- Less Decisions

## Uniformity

## Google Backing

## TypeScript

# Basic Features

Progressive Web Apps

Lazy Loading

Forms

RXJS

Fully Featured Router

Animations

# Advanced Features

**Server-Side Rendering**

**Mobile**

**Angular Language Service**

**ngUpgrade**

# Summary

**Lower Cost Development**

**Performant**

**Full Framework**

**TypeScript**

**Many Features**

**Server-Side Rendering & Mobile**

**Upgrade**
